PROFILE

Full stack developer with a design background. I build web apps with React, Next.js, TypeScript and Node.js, with Supabase and PostgreSQL for data, and I test and deploy what I build. Before I wrote code, I designed for clients around the world and built Shopify and WordPress sites with SEO, so I make apps that are clear, fast and easy to use. MSc in Computer Science. Looking for a permanent developer role in Finland.

PROJECTS

Work Site Commute Check · Location tool · commute-check-swart.vercel.app · GitHub 2026
Next.js, React, Leaflet, OSRM routing API, OpenStreetMap, Vitest, Vercel

- Click a work site on a map of Finland and see real road drive times from 100+ towns with furnished apartments, shortest first and colour-coded. One routing request, fallback estimate if the service is down, unit-tested logic.

Product Data Checker · product-data-checker.vercel.app 2026

- Upload a product CSV or Shopify export; see missing names, descriptions, images, prices and duplicate SKUs, with a quality score per product. Runs fully in the browser; unit-tested.

ShelfLint · Shopify app with AI features In progress

- Full stack Shopify app (React Router, TypeScript, Prisma, Shopify GraphQL API) that finds problems in store product listings, with AI-powered features.

Pallet Checker · Concept for a Finnish freight platform · kuormat-pallet-checker.vercel.app 2026

- Next.js and Chakra UI tool: enter goods size, weight and destination, get the right pallet and PostNord vs DHL delivery days.

EXPERIENCE

IT & Business Developer · Mocelin Create Oy · Espoo · Freelance contract Feb 2023 – Nov 2023

- Turned Figma designs into responsive WordPress websites with Elementor for the agency and its clients (main focus).
- Maintained client and agency websites; did SEO and keyword research, tracking results in Google Analytics.
- Generated new client leads by managing the agency's Fiverr and Upwork profiles.

Brand Designer & Shopify Developer · Freelance on Fiverr · Remote · Level 2 seller 2015 – present

- Logos, brand identities, brand guidelines and packaging for small businesses worldwide, with a 4.9 rating. Self-taught.
- Offered clients Shopify stores on top of branding: turned 10 Figma, PSD and Illustrator designs into responsive themes.

Courier Partner · Wolt · Espoo 2023 – present

- Flexible work alongside studies and development projects.
